BCA Student | MERN Stack Developer

FULL STACK DEVELOPER

BCA student and aspiring Full Stack Developer with hands-on experience building and deploying full-stack web applications using **React.js, Node.js, Express.js, MongoDB, and REST APIs**. Strong foundation in **Data Structures and Algorithms** with practical experience in authentication, CRUD operations, responsive UI development, cloud storage, and deployment. Currently seeking a Software Development Internship / Entry-Level opportunity.

TECHNICAL SKILLS

Languages	: C++, JavaScript, HTML5, CSS3
Frontend	: React.js, Vite, React Router, Bootstrap
Backend	: Node.js, Express.js, REST APIs
Database	: MongoDB, Mongoose, MongoDB Atlas
Tools	: Git, GitHub, Postman, VS Code, Axios
Cloud	: Cloudinary, Render, Vercel
DSA	: Arrays, Binary Search, Trees, Graphs, BST, Sorting

EDUCATION

Bachelor of Computer Applications (BCA)	IK Gujral Punjab Technical University	2024 – 2027
Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Computer Networks		

PROJECTS

KICKLAB – Full-Stack E-Commerce Platform	React, Node.js, Express, MongoDB	Source Code
- Developed and deployed a full-stack footwear e-commerce platform with React.js, Node.js, Express.js, and MongoDB. - Implemented JWT authentication, role-based admin authorization, product management, cart, wishlist, checkout, and order management. - Built an admin dashboard for product CRUD, stock management, and order status updates. - Integrated Cloudinary for product image uploads and MongoDB Atlas for production database storage. - Deployed the frontend on Vercel and backend API on Render with responsive desktop and mobile interfaces.		
WanderLust – Full-Stack Travel Platform	Node.js, Express, MongoDB, EJS	Source Code
- Developed a full-stack travel listing platform with complete CRUD functionality for listings and reviews. - Implemented secure authentication and authorization using Passport.js and integrated Cloudinary for image uploads. - Integrated Leaflet / OpenStreetMap for interactive location mapping and designed a responsive user interface. - Deployed the application on Render with MongoDB Atlas integration.		

ACHIEVEMENTS

- Solved **160+ Data Structures and Algorithms problems** covering Arrays, Binary Search, Trees, Graphs, and BST while following the Striver A2Z roadmap.
- Built and deployed multiple full-stack projects demonstrating practical experience with **MERN stack development, REST APIs, authentication, and cloud deployment**.
- Maintained development projects and source code using **Git and GitHub**.

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Database Management Systems
- Operating Systems
- Object-Oriented Programming
- Computer Networks
